## OLD BUSINESS

2005 Denver Conference, Alan Armitage, Chair

Alan is still working with National to determine which conference rulebook will be followed for our conference in 2005. In February he will begin to form various committees. The memorandum of understanding will also be signed around that time.

The 2005 logo has been submitted to national for the conference.

There was a discussion on the 2003 forum/vendor show. This forum and vendor show has previously been cancelled due to NENA having their national show in Denver in 2003. The NENA board has had a makeover and they wanted A.P.C.O. to consider

putting on the forum and vendor show this year, according to Barb. Kathy Imel was in attendance and she indicated while there were discussions in June regarding this it is now too late to explore this as an option. Barb will advise NENA of this decision.

Brent Finster, Contra Costa County Sheriff's Department, was presented his life membership award by Barb Tuholski, Colorado A.P.C.O. President for his many years of service to Colorado A.P.C.O.

There was no other business and the meeting was adjourned at 1145.
